## **GENERAL COMMENTS**

The amaryllis is one of the most interesting bulbous plants of the American continent. It was introduced into Europe over 150 years ago and became a favorite flower of the royal families. It is surely a regal flower and the Named Dutch Hybrids have been developed to a remarkable degree. The main Dutch Strains are the Ludwig, Van Meeuwen and Warmenhoven strains. Several Dutch growers are now growing amaryllis in South Africa. The foundation stock for these hybrids are the Dutch Strain which have been crossed with other hybrids that had naturalized in South Africa. The Hadeco Strain is now available in the United States as unnamed hybrids. These hybrids appear to be very vigorous and the size is very large. The outstanding colors are in the dark reds. These bulbs are available from September on and can be flowered very early the first year. In a few years there will be named varieties of this strain.

I believe you will find my listing the most extensive in the United States. I try to carry most varieties that are commercially available so that my customers will have a wide choice of colors and varieties to pick from.

While the named Dutch are considered the tops in quality I believe all the different Amaryllis offered in this catalog have merit and deserve your attention.

I would like to call your attention to the miscellaneous bulbs I list. Particularly I would like to call to your attention the Haemanthus or African Blood Lily. These I introduced last season. I had many fine reports on them and they appear to be of rather easy culture. I have discontinued the species *albiflorus* as these were not reliable being mixed with the red species. I will try to find a new source of these and again list them in the future. The new species *Magnificus* I am listing is understood to be one of the most beautiful of the Haemanthus and an exceptionally good pot plant.

I would also like to call your attention to the Cyrtanthus. These are Amaryllids and are smaller than Amaryllis and I am told they flower several times in a season. It is a bulb that apparently has been neglected as a pot and garden subject and deserves your consideration. I was very fortunate to obtain these in several colors and a few of the species *Sanguineus* which is most outstanding.

I would also like to mention the Habranthus and Zyphranthes. These are worthy small amaryllids planted several in a pot or in groups in the border. The Hymenocallis are also very worthy plants for the border and pot culture. The ones I have included under Hymenocallis are evergreen. The Ismene are the deciduous species of this group. The Pancratium also belong to this group.

I have also tried to list some species gladiolus and some worthwhile varieties of Freesias. I will endeavor to expand my listing each year to include other worthwhile and hard to find bulbous plants.

## FOR THE BEGINNER

If you have not tried amaryllis before you will have greater success if you will try the easier growing varieties. I would suggest the following: Marie Goretti, Beacon, Bouquet, Ludwig's Scarlet, Tristan, Apple Bloosom, Doris Lillian, Candy Cane, Ludwig's Goliath, Zenith, Queen of Sheba, Queen of the Pinks, Alcyone, to mention a few. The Hadeco Strain and the Dutch and Australian Strain from India are easy to flower.

## VARIETIES FOR THE SHOW TABLE

Any of the named varieties will win at shows if well grown. I consider the following to be outstanding; Five Star General, Ludwig's Dazzler, Ludwig's Goliath, Beacon, Red Master, Queen of the Pinks, Zenith, Cardinal, Fire Dance, Alcyone, Tristan, Red Emperor, White Christmas, Daintiness, Bouquet, Don Camillo, Love's Desire, Camellia, Queen's Page, Red Majesty, Moreno, Violetta, Pink Beauty, Spring Dream and Clown. Of course the rare Warmenhoven varieties are also outstanding show varieties.

## VARIETIES FOR THE BORDER

For the border in the deep south the following are outstanding. Siren, Bouquet, Apple Bloosom, Love's Desire, Daintiness, Marie Goretti, Shakespeare, Don Camillo. Delilah, Candy Cane, Doris Lillian, Fantasy, Lucky Strike, Pinksterflower, Tristan, Beacon, Leading Lady, Moreno, Salmonette, The Hadeco Strain and Dutch and Australian Strains from India.

## ORDERING

You may order at any time. I suggest early ordering particularly if you want the scarce varieties. This will assure your getting the varieties you want and will help me to plan so others can get what they want too. You do not have to send payment with your order but payment must be made before delivery. I do not accept C. O. D. orders. I will send all customers a mimeograph advanced price list each year before my regular price list is published if you have ordered the previous year or if you request one.

## SHIPPING DATES

Although the exact date bulbs will arrive can not be determined, generally the Hadeco Amaryllis Strain will arrive about the 1st of September. The Van Meeuwen usually arrive next and this year will be shipped one month earlier. They should be here in late October. The Ludwig varieties are to be shipped one month earlier also this season and should arrive in early November. The Warmenhoven varieties will arrive in late November and the Van Tubergen's in December. All the bulbs from India usually arrive in early January. The miscellaneous bulbs from South Africa should arrive in October or November. Freesias, Gladiolus, Herbertia, Leucocoryne are shipped in the fall and winter. Bessera, Ismene and allied plants are shipped in early spring about February after danger of frost is over. These need warm weather to do well.

I usually have fair stocks of most varieties after the first of December and can ship them as soon as ordered until the end of February or March.

Normally I ship the bulbs as they arrive or as my customers direct me. If you order several Strains of Amaryllis I will ship them together unless this will unduly delay their arrival. If so I will ship as they arrive.

Small lots are usually shipped by parcel post - larger shipments are made by express. You will find I pack my bulbs very well and seldom have any damage from cold. Shipments will be made in the south at any time; however I avoid shipping to the north if your particular area shows an extreme cold condition. I watch the weather map and try to ship during mild periods in your part of the country.

## AMARYLLIS SHOWS

There are a number of Amaryllis Shows held each year. If you are near enough you should by all means enter your flowers in these shows. The shows are usually held from January on through April depending on the weather. If you can, please attend your nearest show. You will enjoy it and the people who work so hard to put them on will greatly appreciate the interest shown

The following is a list of the shows held each year:

Men's Amaryllis Show	Valdosta, Georgia
Mobile Amaryllis Show	Mobile, Alabama
New Orleans Amaryllis Show	New Orleans, Louisiana
Men's Amaryllis Show of New Orleans	New Orleans, Louisiana
Panama City Amaryllis Show	Panama City, Florida
Hattiesburg Amaryllis Show	Hattiesburg, Mississippi
Houston Amaryllis Show	Houston, Texas

## CULTURAL DIRECTIONS

Cultural directions will be sent to you with your bulb order. I still have a fair supply of Circulars 171 put out by the University of Florida Agricultural Extension Service on Amaryllis Culture. This has some valuable information in it. If you will send me a self addressed large letter size envelope, I will be glad to send you a copy as long as my supply last.

## AMERICAN AMARYLLIS SOCIETY

The American Amaryllis Society is an affiliate of The American Plant Life Society. The Amaryllis Year Book edited by Dr. Hamilton P. Traub is published each year devoted exclusively to the amaryllids. This is a very fine publication and any one interested in amaryllis or any of the amaryllids will find a wealth of information in it that cannot be obtained elsewhere. All persons and organizations interested in amaryllids and other plants are invited to become members.

The annual dues are \$3.50 which entitles you to a copy of the Amaryllis Year Book. Payment should be sent to:

Dr. Thomas W. Whitaker, Executive Secretary.  
The American Plant Life Society.  
Box 150.  
La Jolla, California.

## IMPORTED DUTCH AMARYLLIS

### Description and Price List.

The description of the varieties are my own as I have seen the variety or have received information on them.

### TERMS:

Prices are prepaid in all states of the United States except Alaska and Hawaii for which add 50c per bulb extra for air mail parcel post. Prices are subject to change without notice. Bulbs are obtained directly from the originator or his authorized distributor for the United States and to the best of my knowledge are true to name and of the highest quality. My liability will not exceed the purchase price of the bulbs.

All bulbs are topsize, 28cm or larger unless otherwise noted. Payment must be made before shipment.

Customers in the State of Florida must include the 3% sales tax.

The letters following each variety indicate the name of the originator or the grower as follows:

(VM) Van Meeuwen  
(L) Ludwig  
(W) Warmenhoven

(VW) Van Waveren  
(I) From India

The varieties in the regular list are those varieties most highly recommended. More ample stocks of these will be carried than those listed under other varieties. Varieties marked with an asterisk (\*) are especially recommended for the border. All Van Meeuwen bulbs are prepared bulbs.

### REGULAR LIST

#### WHITE VARIETIES

<b>*ALBINO (VM)</b> An excellent free flowering white that is easy to grow. A wonderful pot or border plant. 7½"	\$ 3.00
<b>CHRISTMAS GIFT (L)</b> New last season. A fragrant flat slightly ruffled, large white. A wonderful addition to the white class and should become very popular, late flowering 8 to 9"	\$ 4.00
<b>KATHLEEN FERRIER (VW)</b> A free flowering white similar to Queen of the White.	\$ 2.25
<b>*LUDWIG'S DAZZLER (L)</b> One of the leading whites for several years. Less green in the throat than others. A most satisfactory and beautiful variety. 8" to 8½"	\$ 3.00
<b>*MARIE GORETTI (L)</b> A very nice strong growing slightly ruffled white with delicate fragrance. Very reliable. Strongly recommended.	\$ 2.50
<b>MT. BLANC (W)</b> A rare variety, very large and ruffled. Much sought after. Stocks are always small.	\$10.00
<b>MT. TOCOMA (W)</b> A fine free flowering variety. Tall and very reliable. 8"	\$ 3.75
<b>SNOW QUEEN (W)</b> New this season. Introduced at the Floriade. A huge flat white. The name of this one may be changed as Ludwig and Company also had a variety by this name that has been discontinued.	\$10.00
	26/28cm \$ 8.00
<b>WHITE CHRISTMAS (VM)</b> A very free flowering large white. Many fine reports on this one last year. Stocks will again be scarce.	\$ 3.75
<b>WHITE FAVORITE (L)</b> A gorgeous new white with somewhat greenish throat, flat and bearded. Dr. Sheehan of the University of Florida who visited the Ludwig nurseries this year reported that Ludwig & Co. expects this to become a leading white. One you will not make a mistake in trying. 8"	\$ 5.00

#### STRIPPED VARIETIES

<b>CLOWN (VW)</b> A very interesting and flashy red and white striped variety.	\$ 2.25
<b>PINK BEAUTY (W)</b> The general tone of this flower is pink. It grows extra large easily and is veined or faintly striped rose and white. A good show variety. Very different.	\$ 8.00
<b>*SILVER LINING (L)</b> A very large free flowering striped red and white variety. Particularly beautiful and a nice show flower. 9"-10"	\$ 4.00
<b>ZENITH (VM)</b> A large bearded red and white striped variety. The lower three petals are near white. Excellent show flower.	\$ 4.00

#### TWO TONE

#### RED & WHITE VARIETIES

<b>*CANDY CANE (L)</b> A very popular orange, red and white. The color pattern is excellent. Very easy to grow and free flowering. 8"	\$ 3.00
---	---------

<b>FIVE STAR GENERAL (L)</b> A sparkling clean colored red and white, very large and flat. An eye catcher, an excellent show variety. Has been scarce for several years but stocks are better this year. Late flowering. A stella variety. ....	<b>\$ 4.00</b>
<b>PICOTEE (L)</b> A most interesting recent introduction. This is something new in amaryllis and very worthwhile. A beautiful white with red edging, dots and flushings. It has a nice airy form. An elegant and charming amaryllis 9"-10" ....	<b>\$ 7.50</b>
<b>ROSE QUEEN (VM)</b> A free flowering red with white throat. ....	<b>\$ 3.50</b>
<b>VOLENDAM (VM)</b> A white with rose red toward the edge, shaped like a volendam cap. ....	<b>\$ 3.75</b>

### TWO TONE

#### ROSE OR PINK AND WHITE VARIETIES

<b>*BEACON (W)</b> One of the very best amaryllis, grows large and makes plenty of off sets. A salmon pink with white mid-rib. Very beautiful and a good show flower. 10" ....	<b>\$ 5.00</b>
26/28cm	<b>\$ 3.75</b>
<b>*LOVE'S DESIRE (L)</b> One of the best pinks with a white throat, grows well in the border in the south. One that anyone who likes pink will appreciate. ....	<b>\$ 3.00</b>
<b>VERONA (VM)</b> New this season, a salmon pink with white star in the throat. Nicely shaped flower. ....	<b>\$ 4.50</b>

#### OTHER TWO TONES VARIETIES

<b>GOLDEN TRUIMPHATOR (W)</b> New this season. Overall appearance salmon orange with white greenish throat. Upper three petals with light violet stripes. Outstanding variety. Big flower with low plant. Especially recommended for pot culture. ....	<b>\$10.00</b>
26/28cm	<b>\$ 8.00</b>

### BLENDED COLORING

<b>FLORIADE (W)</b> New this season, introduced at the Floriade and is really worth while. White with a faint soft pink sheen, the lowest petals are pure white, the three upper petals have two dark lines each. This may have more color when grown in the United States and may be more stripped. ....	<b>\$10.00</b>
26.28cm	<b>\$ 8.00</b>
<b>MORNING KISS (VW)</b> A flat rather large salmon pink, very fresh and clean appearance. ....	<b>\$ 2.25</b>
<b>*PINKSTERFLOWER (L)</b> A very vigorous growing light orange with pink cast. Wonderful border plant, easy to grow. 8-8½" ....	<b>\$ 2.75</b>
<b>ROSY CLOUD (VW)</b> New this year. Delicate pearl pink scattered all over the flower, from dark pink ribs to carmine flushing toward the heart, green and white throat. Very interesting coloring. 6"-8" ....	<b>\$ 3.50</b>
<b>*SWEET SEVENTEEN (W)</b> A proven variety that is very popular. General tone is shrimp pink, grows large easily. 8½" ....	<b>\$ 3.50</b>

### LIGHT ROSE PINK OR SALMON PINK

<b>*DAINTINESS (L)</b> One of the very best amaryllis, flat, rose pink with a faint green throat. A wonderful variety. 8½" ....	<b>\$ 4.00</b>
<b>FLORA QUEEN (L)</b> New this season. Spinel pink with darker veining especially in the throat. Very flat flower, scarce. 8" ....	<b>\$ 5.00</b>
<b>IRENE (W)</b> A very rare dainty pink. Was not available last season and stocks will be limited this year. ....	<b>\$10.00</b>

\***SPRING DREAM (L)** New last season. A very free flowering pink with salmon glow. This was well received and it is believed it will become very popular. Many say it is the nearest pink of all Ludwig's varieties. An excellent variety. 7½" ..... \$ 5.00

#### LIGHT OLD ROSE

**PRIMA DONNA (L)** A color shade that is different, one that will grow on you but is not breath taking when first seen. A good addition to a well rounded amaryllis collection. 8" ..... \$ 4.00

#### LIGHT VIOLET OR VIOLET-ROSE

**LA FOREST MORTON (L)** New last season, a very beautiful claret rose, free flowering. Should become popular. 8" to 9" ..... \$ 5.00

**MRS. GARFIELD (I)** A rare old hybrid of reticulata striatifolia, rosy orchid, foliage has white stripe on mid-rib, fall flowering. Very scarce. ..... \$ 5.00

#### MEDIUM ROSE PINK

\***QUEEN OF SHEBA (VM)** New last season. A free flowering medium rose pink. Very nice flower. One that has been well received. 7" ..... \$ 4.00

\***QUEEN OF THE PINKS (VM)** New last season. A nice clear colored medium rose pink that grows large easily. One that should become very popular. 8" ..... \$ 4.50

\***MISS MARGARET TRUMAN (L)** Very popular as a border plant. Very nice rose pink color. 7½" ..... \$ 3.50

**PINK FAVORITE (L)** The giant among rose pinks. Will grow to 12." Nice coloring. Fair form. ..... \$ 3.00

\***SIREN (L)** A vigorous growing rose pink with green throat, gets large naturally. One of the strongest growing varieties I know of. Excellent border plant in the south. Can be grown in full sun. A wonderful variety Fairly flat. 9" ..... \$ 3.00

#### MEDIUM VIOLET ROSE TO WINE RED

**VIOLETTA (W)** A very beautiful medium violet rose. Light in the throat. Round and flat. 7½" ..... \$ 3.75

\***MORENO (W)** A shade darker than Violetta. Larger and more triangular shape and excellent variety. 8" ..... \$ 3.75

**ELVIRA ARMARYO (W)** The flower is light violet, a remarkable color among the amaryllis. Very large flower. Introduced at the Floriade and is already selling fast. Only early orders will be able to receive this variety. ..... \$10.00  
26/28cm \$ 8.00

#### MEDIUM DARK ROSE

\***DIAMOND (L)** An excellent medium dark rose that grows large easily. A very worthy variety. 9" ..... \$ 3.00

\***DORIS LILLIAN (L)** Not a large variety but a nice flat round shape. Beautiful color. One of the best amaryllis. 6" to 7" ..... \$ 3.00

**ROSE BEAUTY (VW)** New this season. A cyclamen rose with crimson red throat, long lasting flower. 6½-7" ..... \$ 3.75

**SYMPHONY (L)** New this season. Said to be an improved Diamond. This may be so in Holland, but will bear checking as Diamond is outstanding. Very flat flower, round, 8"-8½" ..... \$ 5.00

### DARK ROSE RED

*LUCKY STRIKE (L) A free flowering dark rose red, slightly cupped shaped.	\$ 4.00
A very nice color. 7½"	
MODERN TIMES (VW) Trumpet shaped but a very fine color shade. Deep rose to wine red color. 8"	\$ 2.25

### SALMON

*BOUQUET (L) One of the best amaryllis. Free flowering and very vigorous, makes plenty of off sets. A begonia pink to salmon with purplish mid-rib. More salmon orange in full sun and delicate begonia pink when flowered in shade. Strongly recommended to beginners. 8"	\$ 3.00
CAMELLIA (VM) Salmon rose, enormous flower. unusually large petaloids making flower appear double. This variety appears to be damaged easily by cold so keep it warm.	\$ 4.50
*LUDWIG'S ACE (L) A very free flowering salmon orange. New last season. Very similar to Spring Dream but of a salmon orange color.	\$ 5.00

### ORANGE

CLEOPATRA (VM) A clear colored salmon orange. Free flowering and one of the best in this color shade.	\$ 3.00
*DELILAH (L) A very beautiful free flowering light orange that often does poor the first year but is most vigorous once it is established. Should be more popular. One of the very best amaryllis. 8"	\$ 3.00
FRIENDSHIP (VM) An outstanding salmon orange. Nice large flower.	\$ 4.50
HOUSE OF ORANGE (VW) A rare attractive flaming orange, very nice. 8".	\$ 2.25
ORANGE WONDER (W) Light orange blending to dark orange throat, This flower is exceptional. Its form is beautiful.	\$10.00
	26/28cm \$ 8.00
*SALMONETTE (W) A very popular clear salmon orange that flowers easily. Many like this flower.	\$ 3.75
TRAFFIC STOP (L) Capsicum red with darker throat. Nice flower. Possibly Ludwig's best orange red. 8"	\$ 3.75

### ORANGE RED

AGATHA (W) A bronzy orange red. Very different color. A rare beauty.	\$10.00
*DON CAMILLO (L) A very vigorous growing border plant for the south. Pansy faced and very flat. Orange scarlet self color. Highly recommended. Scarce. 9"	\$ 4.00
GENERAL EISENHOWER (VW) Salmon orange with dark throat. The linguiform petals give the bloom the appearance of an orchid.	\$ 3.50
KING GUSTAV VI ADOLF (VM) A beautiful bright orange red. Likes cool weather for best flowers.	\$ 4.50
MME. CURIE (W) A rare flat orange red.	\$10.00
ORANGE NASSAU (W) Very rare orange red.	\$10.00

### LIGHT RED

*FABIOLA (VM) A lovely bright red, shading to light rose throat. Large flat flower. Very worthwhile.	\$ 3.00
FAUST (VM) An old standard light vermillion red, very flat.	\$ 3.50
*RED EMPERIOR (VM) An excellent light vermillion red. Large flat and bearded. Should become popular. There are few good light red amaryllis. This should be an eye catcher on the show table.	\$ 4.00

### MEDIUM RED

BELLA VISTA (L) New this season. Cherry red with dark red throat. Round and very flat. 7"-8"	\$ 4.00
BLAZING STAR (L) Dutch vermillion. Plain petals and fairly flat. Easy to grow. 10"	\$ 3.75

<b>FIRE DANCE (L)</b> This flower I had the pleasure of naming. A superb novelty, Dutch vermillion with dark violet red throat. An excellent show variety. Very scarce.	\$ 5.00
<b>*GIANT GOLIATH (VM)</b> A very large, flat faced deep, vermillion. This variety has an amazing ability to reflect light and has a glossy bright sheen.	\$ 3.50
<b>L. B. BAILEY (L)</b> Good medium red variety. Round flat form. 8"-9"	\$ 3.00
<b>*LUDWIG'S GOLIATH (L)</b> A huge variety round and flat, a massive flower. I have had single petals on this one 5" across. A medium red that grows large. 10"-12"	\$ 3.50
<b>QUEEN OF THE SCARLETS (VW)</b> Another large growing medium red with very massive broad petals. 8"	\$ 2.25
<b>RED CHAMPION (VW)</b> A very free flowering red that often makes two spikes. with 8 flowers open at once. Very striking!	\$ 3.00
<b>SCARLET BEAUTY (W)</b> A very beautiful medium red with darker red throat. A most beautiful variety.	\$ 3.75

#### DARK RED

<b>*SHAKESPEARE (L)</b> A vigorous growing red with dark throat. 8"	\$ 3.25
<b>BARBAROSA (VM)</b> A very attractive dark red, flat and well rounded.	\$ 4.00
<b>CARDINAL (L)</b> A stella variety I had the pleasure of naming. A fine show flower-round as a dinner plate and very flat. It should become very popular. A nice dark red with darker throat. Stocks are scarce. 8"	\$ 5.00
<b>GONDIBAR (VM)</b> a flat well rounded, bearded variety. Heavily veined. dark red. 7"	\$ 3.50
<b>HAARLEM (VW)</b> New this season. Bishop red with satin finish. Dark red throat. 7"	\$ 3.75
<b>LUDWIG'S IT (L)</b> This was sensational the first year it was introduced. Last year it was very scarce. A dark red that grows large. up to 10"	\$ 5.00
<b>*PEACEFULNESS (L)</b> An exceptionally nice dark red. Grows large, slightly trumpet shaped, however the petals at the end open flat. Very attractive. 8"	\$ 3.00
<b>QUEEN SUPERIORA (VM)</b> A classic old variety, very flat and bearded. One that has withstood the test of time and still is one of the best dark reds. heavily veined. 7"	\$ 3.25
<b>RED CHAMPION (W)</b> A rare variety. Large dark red. A collector's item.	\$10.00
<b>RED MAJESTY (W)</b> A beautiful dark red. Nice form and excellent color. Large.	\$ 5.00

#### DARK WINE RED

<b>ALYCONE (VM)</b> A very beautiful free flowering dark wine with velvety sheen. strongly recommended. 7½"	\$ 3.25
<b>CHARLEMAGNE (VM)</b> A very large wine red. A most beautiful variety.	\$ 4.00
<b>PURPLE QUEEN (W)</b> A large purplish red. Some claim it is the best one in this color. Not too well known but much sought after. Scarce. 8½" Top size	\$ 8.00
No. 1	\$ 7.00
<b>RED MASTER (W)</b> Possibly the most popular amaryllis in the list. A gorgeous large dark wine red. To 11"	Top size \$ 4.00 No. 1 \$ 3.50
<b>SUPERBA (VM)</b> (Also known as Purple Queen) A purplish dark red that is near purple when soil and growing conditions are right.	\$ 3.50
<b>*TRISTAN (VM)</b> A very fine wine red, free flowering and makes plenty of off sets.	\$ 3.00

#### GRACILIS & MINATURES IMPORTED FROM HOLLAND

<b>BEAU JOLAIT (W)</b> Medium size rosy red.	\$ 4.00
<b>CHRISTMAS JOY (W)</b> An early flowering red. Medium large size. A belladonna hybrid.	\$ 4.00

<b>FIRE FLY (L)</b> (Garcilis) Capsicun red, darker throat.	\$ 2.00
<b>FLOWER RECORD (W)</b> Medium small scarlet with nicely ruffled edge. very pretty.	\$ 4.00
<b>LITTLE SWEETHEART (L)</b> Garcilis. Salmon orange with white throat. Very nice.	\$ 2.00
<b>PAMELA (L)</b> Garcilis. New this season. Capsicum red with green throat.	\$ 2.50
<b>PICTURE (L)</b> Garcilis. Red with white star in throat.	\$ 2.00
<b>PIXIE (L)</b> Garcilis. Orange red with green throat. New this season.	\$ 2.50
<b>STAR OF BETH LEHEM (W)</b> Salmon with white center. Medium small.	\$ 4.00
<b>VAN MEEUWEN'S GARCILIS:</b> Bogeschoten. Free flowering, red. 2" to 3"	\$ 3.50
<b>VOODOO (L)</b> Garcilis. New this season. Scarlet with light green throat.	\$ 2.50

#### OTHER RARE WARMENHOVEN VARIETIES

These varieties are not normally available to the American trade so are not registered with the American Amaryllis Society. Available in limited quantities only.

<b>DUTCH MASTER (W)</b> Rosy red with fine white stripes.	\$15.00

#### OTHER IMPORTED DUTCH AMARYLLIS

##### LUDWIG'S NAMED AMARYLLIS IN SMALL SIZES IN SEPARATE COLORS LABELED TO NAME.

These are flowering size bulbs and generally will make a fair size spike the first season. They are bought by color and I will not know the different varieties until they arrive.

20/22cm size in white each

\$1.35 22/24cm size in white, rose pink,  
salmon, red, striped. each

\$1.50

The following varieties can be expected among the varieties I receive. I reserve the right to substitute. However I will allow you to pick the varieties you desire and will fill your order as nearly as possible to your specifications.

White: Bridesmaid, Marie Goretti, White Giant, Ludwig's Dazzler, Nivalis.

Pink & Rose: Daintiness, Doris Lillian, Margaret Truman

Salmon: Bouquet, Salmon Joy, Mothersday, Halley

Orange: Pinksterflower, Delilah

Red. American Express, Attraction, Brilliant, Champion's Reward,  
Wyndham Hayward.

Stripped: Apple Blossom, Fantasy, Love's Desire & Candy Cane.

#### C. G. VAN TUBERGEN'S STRAIN

HYBRID DUTCH: Many fine reports on these three colors. They come about 95% true to color. The pinks are not all solid colors but you will find many different and most beautiful blooms. The white lined pink and red are very clean appearing and worthwhile. All are 24/26cm size.

	each	3
White .....	\$2.25	\$6.00
White, lined pink and red .....	\$2.00	\$5.75
Pink .....	\$2.50	\$6.50

#### OTHER SPECIES & HYBRIDS FROM VAN TUBERGEN

Amaryllis, Species Aulicun (roboustun Tettaui)

This is a fine vigorous variety of this species. Scarlet red with green netting, fall flowering. If you have tried Aulica and failed to flower it, try this one and I believe you will have success. Fall Delivery. \$ 3.00

Amaryllis: Ackermannii (aulicum + Johnsonii)

Nearly hardy, deep crimson red, Fall flowering, fall delivery. \$ 4.00

Amaryllis Species Immaculata (candidum)

A very late flowering species, native to Brazil, Sweet scented, late spring delivery. \$ 7.00

#### IMPORTED FROM BRAZIL

##### UNIDENTIFIED SPECIES FROM BRAZIL.

These come from one supplier who collects other plants in Brazil. They are gathered in the wilds and my supplier says each is different. These are sold by identification numbers and the name of the species will be furnished when they flower and can be identified. At present I have received five (5) shipments of these bulbs comprising four (4) different species. My supplier is on a collector's tour to Mato Grosso, an area that should contain species never before introduced and I expect to receive at least two (2) species from this area. Each lot I receive of these bulbs are numbered. The first number indicates the species, the second the year received.

Species 1/59 from Santa Catarina. This species first imported in 1959 has not flowered. Bulbs appear to be going dormant this summer so expect flowers this fall. Very vigorous growing.

Species 1/60 from Santa Catarina.

Will be received in July. Believed to be the same species as above but my supplier is not sure they are the same.

Species 2/59 from Parana.

Appears to be a miniature species from the foliage. Appears very healthy and is growing well.

Species 3/60 from Santa Catarina.

Received in June. Foliage has just started. Foliage is broad so could possibly be blumenavia.

Species 4/60 from Santa Catarina, received in August 1960.

I will book orders for any of the above and two different species from Mato Grosso in all six unidentified species. The designation for those from Mato Grosso will be 5/60 and 6/60. Identification will be published as soon as determined for each.

#### PRICES on UNIDENTIFIED SPECIES from Brazil.

Largest bulbs — Each \$2.50      Smaller — 2 for \$2.50

**SPECIES MONTBRETA:** Said to be native to Brazil. Only a few. .... Each \$ 1.00

**HYMENOCALLIS SPECIOSA:** Native to Brazil. An evergreen bulbous plant with very large umbel of snow white flowers. Sweetly scented. .... Each \$ 5.00

#### HADECO STRAIN AMARYLLIS

These amaryllis are from South Africa and are equal to the best Dutch strains. They were developed from crosses between Dutch and amaryllis that had naturalized in South Africa and are very vigorous. I had many fine reports on them with flowers up to 12." They are available from September to April and can be flowered in about 6 weeks. There will be a special section at the show this season for African Amaryllis. The dark reds in these amaryllis are noteworthy. The pink and rose shades often have white in them. My supplier says the Selected Hybrids will be even more improved this season. I expect to offer Named varieties of this strain in about three years. They have 400 varieties picked now which they will reduce to about 30 before introduction.

**SELECTED HYBRIDS:** These are selected while in flower. 28/30cm size, in separate colors; wine red, mahogany red, violet red, rose, and pink. each \$ 2.25

**MIXED HYBRIDS:** These are the balance of the seedlings after the selected hybrids are dug out. Mixed colors. .... each \$ 2.00

Any of the above African Hybrids potted in special prepared soil in plastic pot. All you need do is water to flower. Add \$1.50 extra per bulb.

#### AMARYLLIS FROM INDIA

There are many nurseries in India that offer Amaryllis and other bulbs to the world trade. There are many interesting hybrids from this area that can not be obtained elsewhere and many of these are especially worthy. The standards in India are apparently low and the quality of bulbs from some firms can not be depended on to be as represented. I have found the Universal Bulb Company most reliable and the bulbs offered here are from this firm except where indicated otherwise.

#### INDIAN BELLADONNA HYBRID (Sold as amaryllis Equestrie in India)

This is a small flowering scarlet with yellow green throat with white star. I sold it as amaryllis Belladonna Minor in 1959-60. Dr. Traub informs me that it is a hybrid between Amaryllis Belladonna and a species of the subgenus Omphalissa. It is a very wonderful pot plant. The bulbs are medium sized and can be planted several in a pot. It makes a nice border plant in the south. The bulbs of this hybrid seem to be plentiful in India and so far have been true to name from all sources.

Universal Bulb Company ..... 3 for \$1.50      6 for \$2.50

Superior Bulb Company ..... 3 for \$1.50      6 for \$2.25

**INDIAN MINATURE HYBRIDS:** The miniature hybrids from India vary a lot as obtained from the different growers. Some growers will furnish all Belladonna hybrids as listed above, some furnish hybrids of many other of the psittacina-reginae type. They vary a great deal from grower to grower and all I have tried have to be culled at least 50% to obtain anything worthwhile. The ones I received from Universal Bulb Co. had some most beautiful red and white and pink and white minatures similar to gracilis in them. They grow more robust than the gracilis from the same company.

Universal Bulb Company .... 6 for \$3.50      10 for \$5.00

#### INDIAN GRACILIS (Dutch Strain)

These were very similar to the minatures above but those from Universal Bulb Co. are a much improved selected mostly red colors and more minature, being more dainty than the true Dutch Strain.

Universal Bulb Company or Superior Bulb Co.  
From either company—Mixed. \$1.00 each 3 for \$2.50

#### DOUBLE FLOWERING HYBRIDS:

The double flowering from Universal Bulb Co. have been tested two years and have proven to be minature doubles and may be a double form of Bellandonna minor.

Universal Bulb Company or Superior Bulb Co.  
From either company or mixed 75c each 3 for \$2.00

#### AUSTRALIAN HYBRIDS:

Bulbs of this strain from Universal Bulb Co. were tested for two years, the first year in mixture — the second by color. The first year they were similar to the bulbs received this year as Dutch strain from L. K. Pradham. The bulbs this past season were much improved over the mixed ones. They appeared to have been selected; however they still were only about 80% true to color. They can be expected to be more selected this season. While the form and type vary quite a bit they are an interesting lot. There are colors and types among them not seen in other strains. A few are extremely large to 10" or more. There are some brown tones, Halloween orange, old rose with large yellow green throats, flaming reds and some speckled with small dots.

Universal Bulb Company, Red shades, near whites, stripped, salmon & orange, rose & pink shades.

Your choice of color—8/12 size \$1.25 each 5 for \$6.00

Superior Bulb Company: Mixed colors (Not Tested)

10/12cm size \$1.00 each 6 for \$4.00

#### HYBRID DUTCH STRAIN

The bulbs grown from the Universal Bulb Co. the past two years were improved each year and are definitely the true Dutch Strain. Some of them are equal to named Dutch varieties. (Do not confuse these with the Dutch Strain I sold of L. K. Dradham last year that were very disappointing) These are surely worthy of your consideration and appear to grow very vigorously in the border.

COLORS: Red shades, Pink & rose, Salmon & orange, Carmine and Stripped.

Universal Bulb Co. 8/12cm \$1.75 each 5 for \$7.50

Superior Bulb Co. (not tested) 10/12cm \$1.50 each 5 for \$6.50

#### AMARYLLIS SEED

Available in June

American grown Hybrid Dutch: These seeds are all hand pollinated and separated by color. Only the best named varieties are used as pollen parents. The special select hybrid seed are from the more expensive and rare varieties. All seeds are from imported Dutch bulbs. These seed should produce some outstanding seedlings. Colors available are as follows:

Red shades	Rose & pink shades	Salmon & orange shades
Dark red	Stripped	White
	Mixed colors.	

#### SELECT SEED

	Pkt 25 seed	4 Pkt.
All colors except white .....	\$1.00	\$3.00

## IMPORTED SPECIES AMARYLLIS SEED FROM BRAZIL

(Fall shipment)

Amaryllis aulica: This variety of Aulica is different from that offered as bulbs. It is said to be pure red without any stripes or trace of color. In the wilds it grows in trees. ....	Pkt. 25 seed	\$ 2.50
Amaryllis moreliana: Flower is large and fox red with tiny purple nettings. ....	Pkt. 25 seed	\$ 2.50
Amaryllis Striata (crocata) Orange flower. Supply very limited. Orders will be taken on priority basis. ....	Pkt. 25 seed	\$ 3.50
Worsleya Raineri: This is known as the blue amaryllis. ....	Pkt. 25 seed	\$ 2.50

## OTHER RARE AND INTERESTING BULBOUS PLANTS

IDENTIFICATIONS: (H) Shows Holland imports.

IDENTIFICATIONS: (A) African imports

IDENTIFICATIONS: (I) Indian imports

IDENTIFICATIONS: (B) Brazilian imports

**AMORPHOPHALLUS BULBIFER** (I) Rare aroid broad rose spathes before leaves. Very ornamental foliage. (delivery after January) .... \$ 1.50

**BESSERA ELEGANS (H)** A small flower recently introduced from Mexico. Very elegant bell shape flower. Orange red outside, inside orange. .... \$ 1.50

**CHILDANTHUS FRAGRANS (H)** Bulbous plant from South America. Sweet scented, yellow flower. .... 6 for \$ 1.50

**CROCOSMEA AUREA (A)** rare species. 2 3/4" golden orange flower. .... 6 for \$ 1.50

### CYRTANTHUS:

A much neglected amaryllid from South Africa related to the Scarborough Lily. They come in a nice color range. C. Sangiuneus is an outstanding variety of this species obtained from Mr. Gordon McNeil of South Africa. He has some interesting hybrids coming along that I hope to introduce in a few years.

Fine Mixed (I) (Spring delivery) .... 12 for \$ 2.00

C. Mackenii (A) White, cream, yellow, apricot and pink

C. O 'brennii (A) red

Two above—Your choice of colors

In mixture or all one color .... 12 for \$ 2.50

Each labeled to color .... 12 for \$ 3.00

C. Sangiuneus (A) An outstanding variety of this species, flowers several times each season. Bright red. .... Each \$ 1.00

**ELISENA. LONGIPETALA (H)** Rare bulb, native to Peru. Pure white flower. Fantastic shape. .... Each \$ 1.50

**EUCHARIS GRANDIFLORIA (I)** Amazon lily, nice foliage plant with sweet scented white flowers much like a daffodil. Can be flowered several times a year by alternately drying and watering. .... 3 for \$ 2.00

**EUSTEPHIS, YUYUENSIS (H)** Rare amaryllid from South America. Umbel of drooping tubular orange scarlet flowers. .... Each \$ 4.50

**FREESIA (H)** Sweet scented South African plants that have been popular pot flowers for many years. The varieties offered here are greatly improved varieties. Fall or winter delivery)

	12	25
Apothose, Carmine pink, white throat.	\$1.50	\$2.50
Buttercup, clear yellow.	\$1.00	\$2.50
Kimberley, deep yellow.	6 for \$1.75	\$6.50
Red Chief, crimson.	\$1.50	\$2.50
Rosamonde, soft pink, white center.	\$1.50	\$2.50
Ruby Glow, deep ruby red.	\$1.75	\$3.00
Snow Queen, pure white	\$1.25	\$8.00 per 100
All the above in mixture.	\$1.25	\$8.00 per 100

**GLADIOLUS PSITTACINUS HYBRIDS (I)** the Parrot Gladiolus very different and interesting. Tall to 6' 3 for \$1.00 12 for \$3.50

**GLADIOLUS** (rare species and hybrids) Holland grown. Excellent for pot culture or out doors in frost free areas. Fall and Spring delivery.

	12
byzantinus, fairly large purplish red.	\$1.50
byzantinus albus, white.	\$2.50
collvillii albus — the Bride, white	\$1.50
roseus, soft pink	\$2.00
ruber, carmine red	\$2.00
cuspidatus, white flaked purple petals, waved.	\$3.00
grandis tristis, creamy white, sweet scented.	\$3.00
grandis christabel, yellow veined purple, sweet scented.	3 for \$1.50
orchidiflorus, greyish green with curious shape.	3 for \$1.50
illyricus, purplish red	\$1.50
segetum, carmine — pink, early	\$1.50

#### **GLADIOLUS TUBERGENII**

Charm, bright purplish rose with white center.	\$1.50
Warmunda, sport of above, soft pink.	\$1.50

**GLADIOLUS nanus, mixed** \$1.50

**GLADIOLUS harleensis, mixed varieties** \$1.75

**GLORIOSA.** Tuberous-rooted climbing lily, Spring delivery.

Carsonii (H) fine deep purple, edge yellow.	Each	\$ 2.00
Lutea (H) a rare soft yellow flower, margin slightly waved	Each	\$ 4.00
Plantii (H) flower uniform soft orange	Each	\$ 1.50
Rothschildiana (I) crimson edged yellow	Each	\$ 0.75
superba (H) This is the true G superba. It has been in cultivation 250 years. Rare yellow tipped red, waved and criped. Native to Southeastern Asia.	Each	\$ 5.00
superba (H) South African form. Soft orange and yellow, edge of segments waved.	Each	\$ 1.50

**HABRANTHUS:** A small amaryllid much like Zephyranthes. Should be better known Spring delivery.

Andersonii, cupreus (H) deep yellow	3 for	\$ 1.50
brachyaudrus (H) violet rose	3 for	\$ 1.50
robustus (I) bright rose.	3 for	\$ 1.00

**HAEMANTHUS:** The African blood lily is a very worthy rare lily for the lower south or as a pot plant. It should become more widely known as it is a very interesting flowering plant and of easy culture.

H. Multiflorus (I) a fire ball of tiny scarlet flowers that forms a round head about 4 to 6" in diamiter. Very striking and different and easy to grow. Extra large bulbs 10/12" (spring delivery)	Each	\$ 1.50
H. Magnificus (A) A very rare form from South Africa said to be much more spectacular than multiflorum. The flower is scarlet. The bracts are reddish brown. The bright red seed are nearly as striking as the flower. Fall and spring delivery.	Each	\$ 2.25

**HERBERTIA**

Pulchella (H) a very rare bulb native to Chile with uniform soft violet flowers in summer. Spring delivery. .... 6 for \$ 2.50

**HYMENOCALLIS:** Beautiful evergreen plant for potting or border in lower south. Spring delivery.

Littoralis (I) white 12-24 inches tall ..... Each \$ 1.00

Speciosa (B) A very large flowering species. White flower. .... Each \$ 5.00

**ISMENE (H)** A bulbous plant native to Peru often called Peruvian Daffidil, sweet scented.

AMANCAES, Very rare species, deep yellow. .... \$ 1.75

CALATHINA ADVANCE, Improved calathina large white flower. .... \$ 0.75

FESTALIS, Very interesting white hybrid of (calathina + Elisena long-ipetala) White with long curved petals, free flowering. .... \$ 0.90

HARRISIANA, Dwarf small white flower. .... 3 for \$ 1.50

SULPHUR QUEEN, HYBRID, primrose yellow. (calathina + Amancaes hybrid) .... \$ 1.00

**LEUCOCORYNE (H)** Ixoides Odorata, Glory of the Sun. Native to Chile. Sky blue flower, sweet scented. Valuable as a cut flower. .... 3 for \$ 1.00

25 for \$ 7.00

**LEPTOCHITON, QUITOENSIS: (H)** Very exotic lily native to Ecuador. Allied Ismene with sweet scented white flower. .... Each \$ 5.00**IYCORIS.** Jaopnica ..... 3 for \$ 1.00**NERINE SANGUINEA (I)** Scarlet flower ..... 3 for \$ 1.50**NERINE SARNIENSIS (I)** The Guernsey lily, salmon pink flower. These are often mistaken for Lycoris. .... 3 for \$ 1.50**PAMIANTHE, PERUVIANA (H)** Sweet scented white flower allied to Hymenocallis. .... Each \$ 7.50**PANCRATUM ZEYLANICUM, (I)** Summer flowering white flower similar to Hymenocallis. 6/10" bulbs ..... 3 for \$ 1.50**SPREKELIA (H)** formosissima bright red orchid type amaryllid. Native to Mexico. .... 3 for \$ 1.00**URCELINA (H)** hybrida miniata (Pentlandia minata) native to the Andes with drooping tubular red flower: .... 3 for \$ 1.75**WELDENIA (H)** Candida, A very rare tuberous rooted native to central America. Blooms through the summer. Large white flowers. Strong roots. .... Each \$ 5.00**VELTHEIMIA.** Beautiful cape bulb, shiny green foliage with 2 feet flower spikes.

capensis (viridefolia) reddish flower. .... Each \$ 2.00

capensis (Rosalba) new variety. White with pinkish cast. .... Each \$ 4.50

**ZEPHYRANTHES:** Sometimes called the rain lily. A small amaryllid native to the southern U. S., Central and South America. Very nice when planted in large groups. .... 12 100

Candida (I) Fine hardy bulb with white in fall. .... \$0.75 \$3.50

Candida Major (H) A very robust form. Tall stem, large flower. .... \$0.50 each \$4.00 12

Carinata, Grandiflora (robusta) (I) Deep pink, large flower, very fine species. .... \$1.00 \$5.00

Rosea, Small pink flower. .... \$1.25 \$7.50

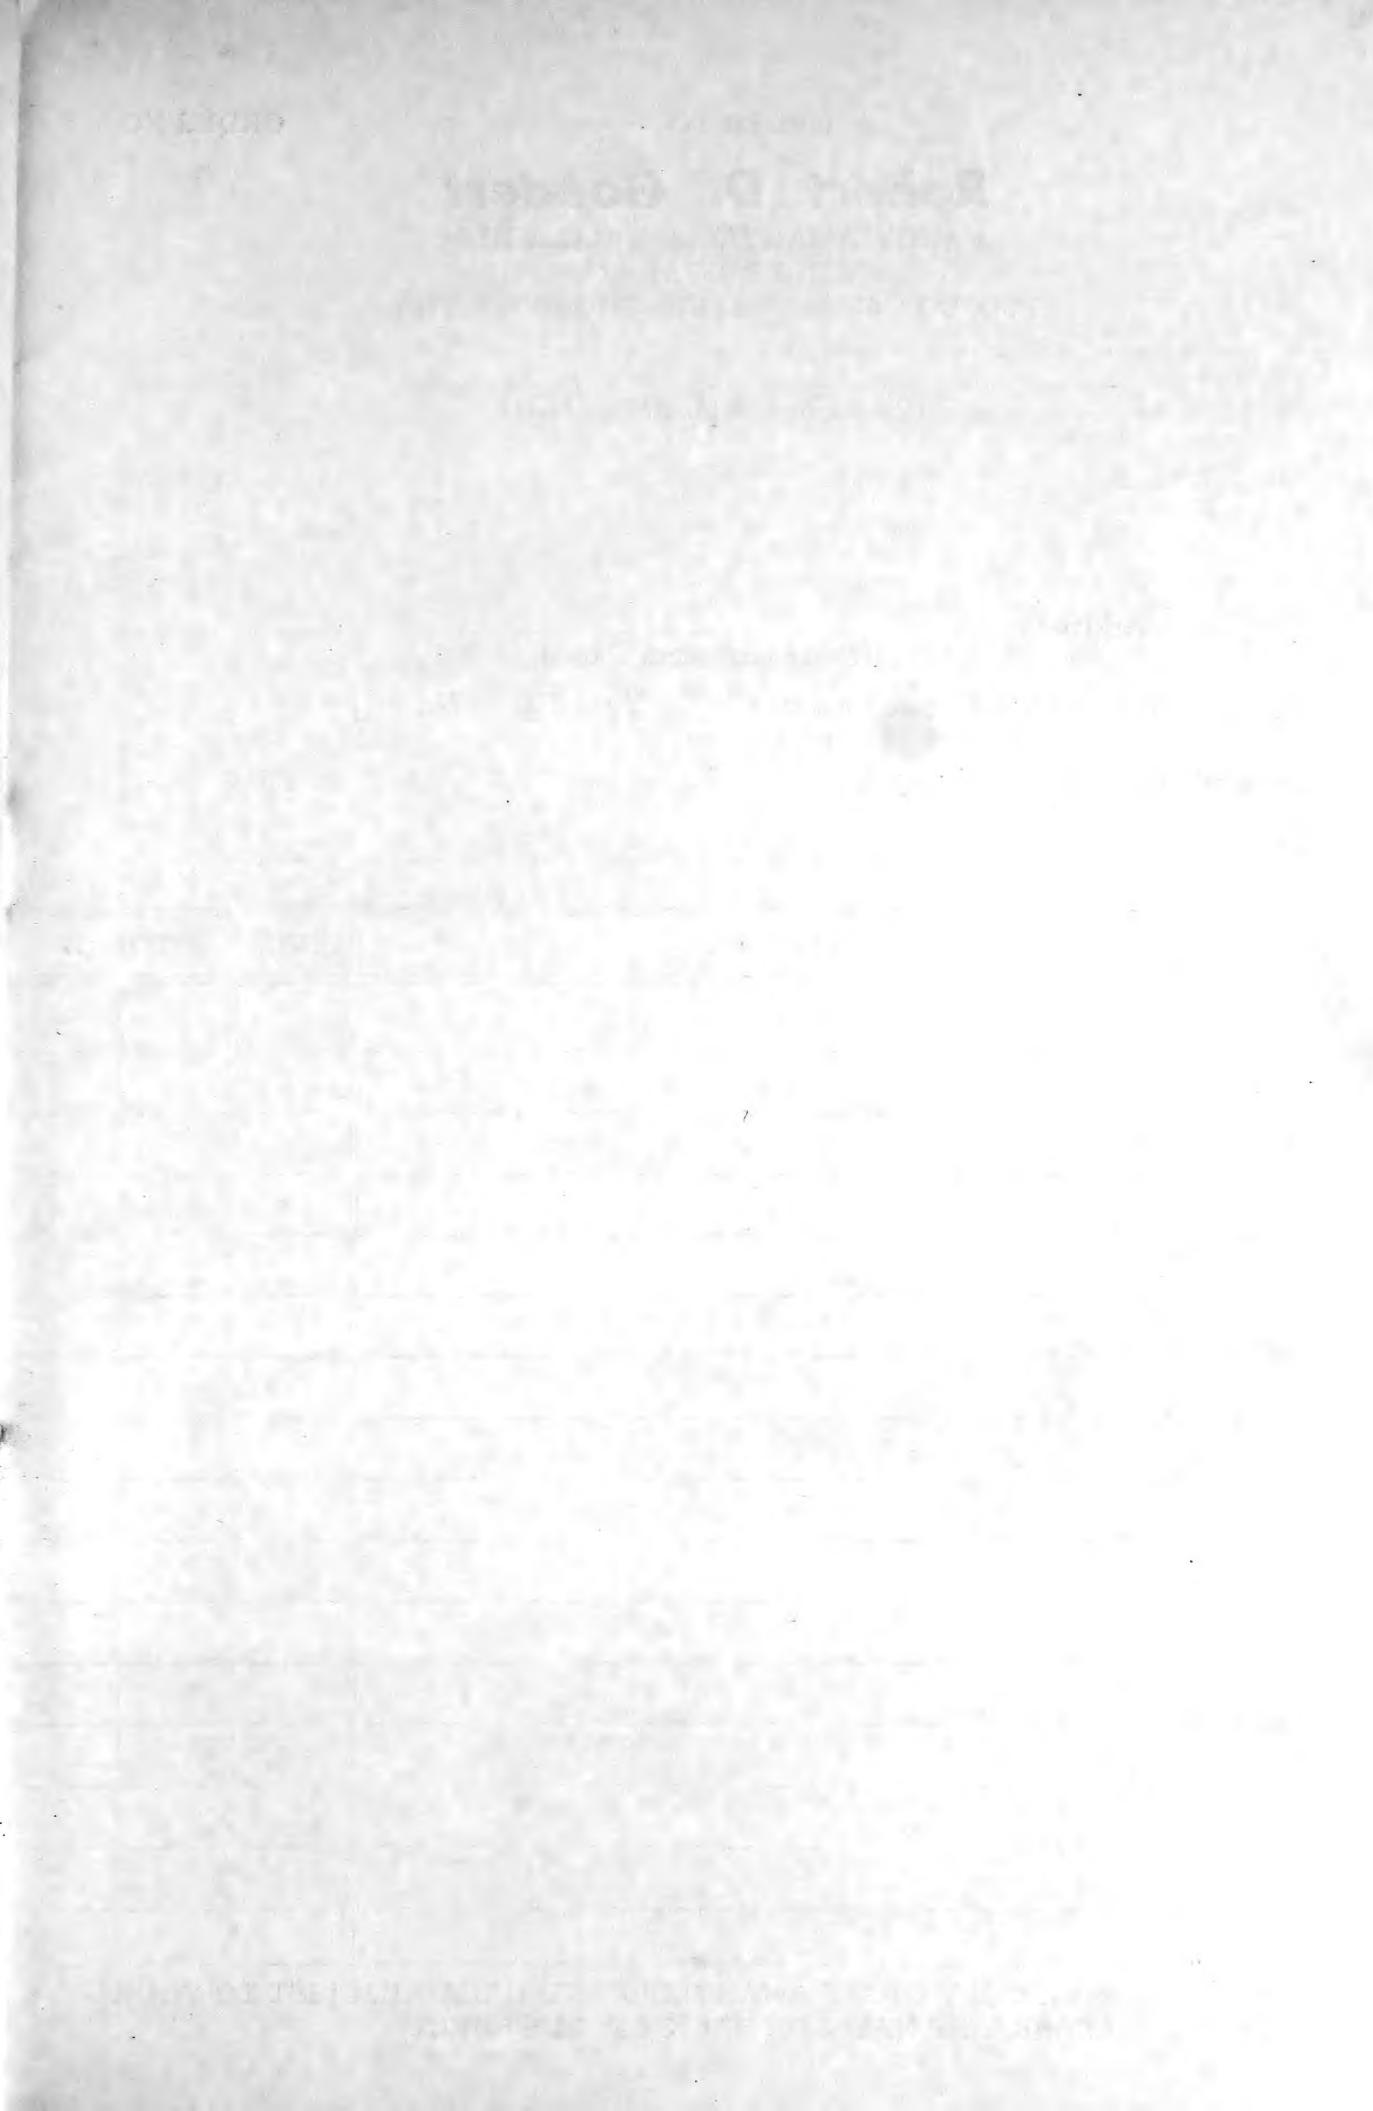

Sulphurea, Yellow. .... \$1.25 \$7.50

**RECOMENDED REFERENCE BOOKS**

**TRAUB'S AMARYLLIS MANUEL**, is the most complete treatise on Amaryllis I know of. This book contains 338 pages on breeding, propagation, culture, diseases, insect control, marketing, showing and other information on Amaryllis including descriptions of most of the species. For those who are more than casually interested in Amaryllis, it is recommended as a reference book. \$7.50 post paid.

**PEGGIE SCHULZ—"AMARYLLIS AND HOW TO GROW THEM"** This is a worthwhile book on Amaryllis culture. Price \$2.95 post paid

I am planning to put out a separate listing on Fancy Leaf Caladiums this spring. If you are interested in this bulbs a post card will bring you this list when published. Caladium will be available from March through June.
